```
public class PatternGenerator {

    public static void main(String[] args) {
        int size = 6;

        for (int row = 1; row <= size; row++) {
            for (int col = 1; col <= size; col++) {

                // This line demonstrates continue
                if (col == 2) {
                    continue;
                }

                // This line demonstrates break
                if (col == 4) {
                    break;
                }

                System.out.print("# ");
            }
            System.out.println();
        }
    }
}
```
